Dear Coach,

Welcome to the 2013 Mustang Challenge. This year’s event will take place on the third weekend of September, offering you a quality option to add to your schedule. Our intent is to provide a fun and challenging course that will be well managed and give you an exceptional competitive experience.

Central park is located in Santa Clarita, California, approximately seven miles from Magic Mountain. The course has been designed to resemble the historic Woodward Park course in Fresno, CA. The course at Central consists of low cut grass and hard packed dirt paths, with a few short mulch and woodchip crossings.

Entries into the invitational sections will be limited to 300 athletes to allow for a competitive, but manageable field size. Due to this please enter early to ensure your spot as entry in the collegiate section is not guaranteed. Also, competitive unattached as well as club athletes are welcome to participate in the college sections.

Please email me if you have any questions or concerns at mastersxc@gmail.com. Best wishes,

Zach Schroeder
Head Coach
The Master’s College Cross Country and Track
How To Enter (Schools and individuals):
